The Brevard County Republican Executive Committee (BREC) has passed a resolution in a landslide vote to ban the mRNA COVID-19 vaccine, deeming it and the virus a “biological and technological weapon.”

Read the letter below:

“Whereas We the People of the State of Florida were told that COVID-19 presented a grave danger to ourselves, our families, and our communities. We were then subsequently told to and in many cases mandated to take the experimental COVID-19 injections for the following reasons: That it would prevent transmission and thus stop the spread of COVID-19. That doing so would protect our families, ourselves, and the public. Doing so would allow us to keep our jobs and/or benefits to be able to support our families. By doing so we were doing our patriotic duty for our country, state, and communities. We didn't have a choice because of President Biden's COVID-19 Vaccine Mandates.

Whereas strong and credible evidence has recently been revealed that COVID-19 and COVID-19 injections are biological and technological weapons. Whereas Pfizer's clinical data revealed 1.223 deaths, 42,000 adverse cases, 158,000 adverse incidents, and approximately 1,000 side effects. Whereas an enormous number of humans have died and or have been permanently disabled. Whereas strong and credible evidence exists that COVID-19 mRNA shots alter human DNA. Whereas government agencies, media and tech companies, and other corporations, have committed enormous fraud by claiming COVID-19 injections are safe and effective. Whereas a statewide grand jury is investigating COVID-19 vaccine crimes. Whereas continued experimentation on humans and denial

of informed consent are violations of the Nuremberg Code and therefore constitute crimes against humanity.

Be it Further Resolved: On behalf of the preservation of the human race, the Brevard County Republican Party calls upon Governor DeSantis and the state legislature to prohibit the sale and distribution of COVID-19 injections and all related injections in the state of Florida, and for the state Attorney General to immediately seize all COVID-19 injections and mRNA injections in the state of Florida and have a forensic analysis conducted to determine if the ingredients pose a danger to recipients.”
